MoSCoW Prioritization for RailSlips

Priority	User Story
Must Have	As an admin, I want to authenticate users and manage roles (Admin/Employee). As an employee, I want to manage my profile and update my details. As an admin, I want to view and create payslips for employees. As an employee, I want to submit vacation requests and track their status. As an admin, I want to approve or reject vacation requests from employees.
Should Have	As an admin, I want to filter and search for employees by department and status. As an employee, I want to view my leave history. As HR, I want to create and view payslips for employees.
Could Have	As an employee, I want to request half-day leave. As an employee, I want to view/download my payslips and other employment documents. As an admin, I want to be notified about pending vacation requests and payslips. As an employee, I want to receive email notifications about vacation request status changes. As an admin, I want to generate and view department-wise leave reports. As an employee, I want to have a page where I can clock in and clock out so that I can track my working hours. As an employee, I want to upload and display a profile picture so that I can have a personalized and professional representation in the system. As an admin, I want to generate and send invite codes to new employees so that they can register and join the system securely. As a user, I want to verify my account via email so that I can ensure the security and authenticity of my registration.
